# HAND-WROUGHT ORNAMENTAL IRON

## SCREEN DOOR GRILLES

*Add  
Distinction*

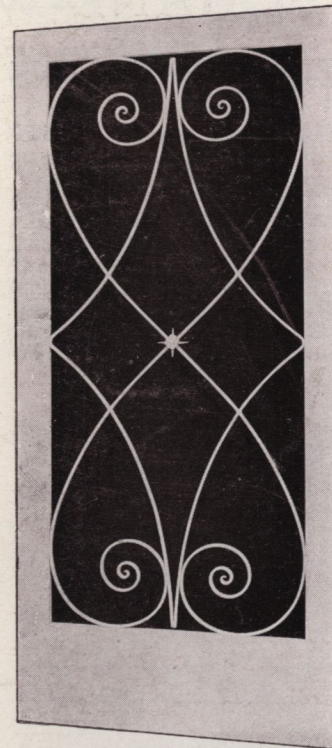

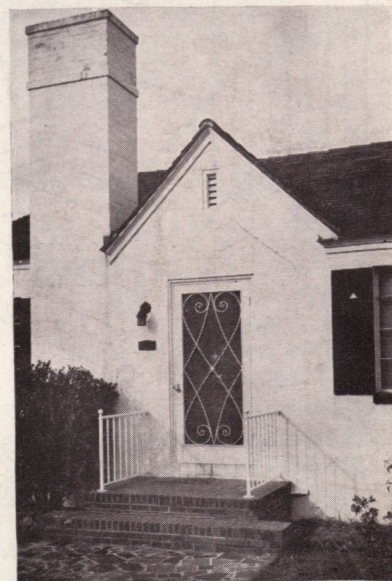

- And that elegant look to any doorway to set that home apart.
- Protects the screen and strengthens door.
- Ten original patterns for any type architectural design.
- The best in hand-wrought craftsmanship at lower prices.

Design No. 6 ..... List \$18.00  
Shipping wt. .... 18 lbs.

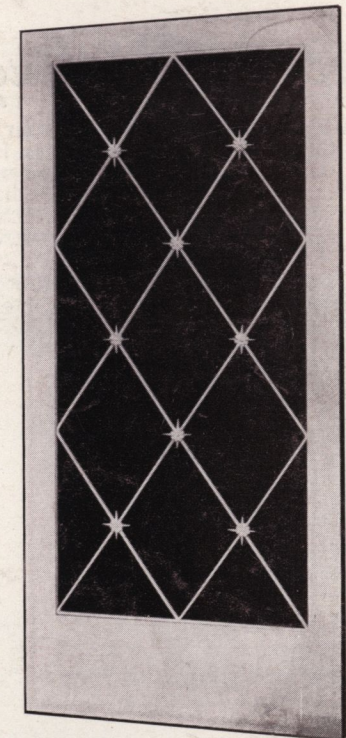

This universally popular grille is used here to create a distinctive note to the entrance way to an attractive living porch.

*Look for the forge drawn tips at the inner ends of the scrolls, the "mark" of genuine hand wrought ornamental iron.*

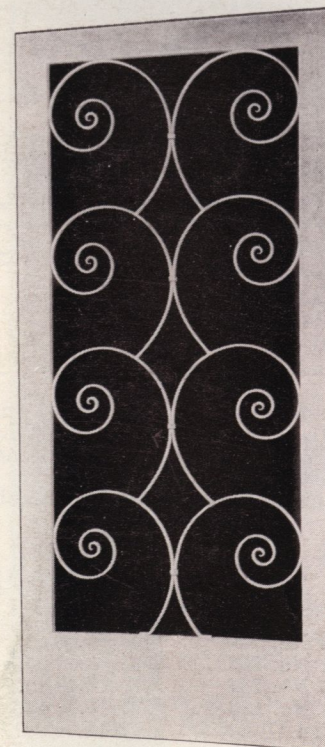

The NO. 10 SCREEN DOOR GRILLE and the STOOP RAILINGS add that extra note of distinction to the entrance of this small home.

No. 10 ..... \$22.20  
Ship. wt. .... 22 lbs.

No. 3 ..... \$24.00  
Ship. wt. .... 20 lbs.

No. 9 ..... \$18.80  
Ship. wt. .... 18 lbs.

**HAND-WROUGHT** from  $\frac{1}{4}$  x  $\frac{1}{2}$  inch iron to last a lifetime. The figures are hand embossed. The grille adds strength to the door and protects the screen against that elbow bulge.

**FINISHED** with a gleaming white enamel paint over a protective primer coat.

**EASILY INSTALLED.** The grille fits neatly into the wood panel screen opening of the door. It is drilled at the proper points for easy attachment by anyone with the screws shipped with the grille. The grille may be mounted in front of or behind the screen. The beautiful effect created by the grille is best obtained where the grille is in front of the screen, which it tends to hide. With a new door hang with the screen to the inside. Where the door is already in place with the screen to the outside lift the moulding holding the screen and retack both on the inside—thus the grille can be mounted in front of the screen.

**WHEN ORDERING**—check outside dimensions of your door and dimensions of your inside screen opening with **STOCK SIZE GRILLE TABLES** below. Note separate table for **SINGLE PANEL DOOR** and **TWO PANEL DOOR**.

All Prices List — F. O. B. Orlando, Fla.

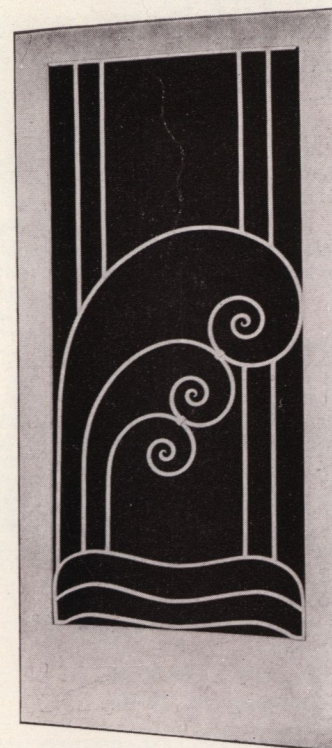

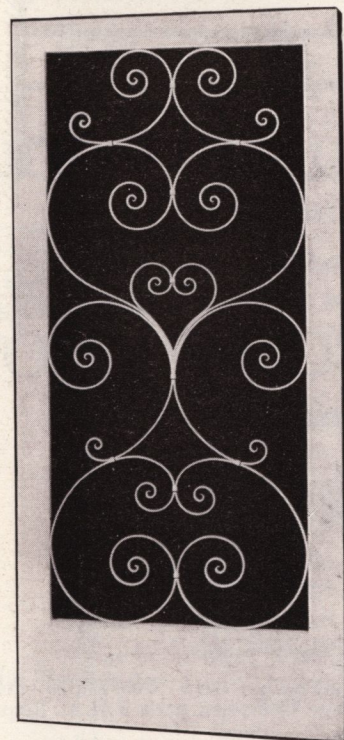

No. 19 .....\$21.50  
Ship. wt. ....22 lbs.

No. 7 .....\$29.40  
Ship. wt. ....24 lbs.

No. 17 .....\$18.60  
Ship. wt. ....25 lbs.

No. 21 .....\$17.50  
Ship. wt. ....18 lbs.

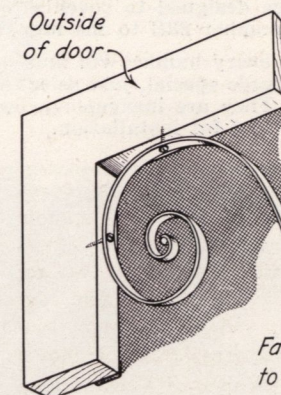

No. 18 .....\$15.00  
Ship. wt. ....18 lbs.

No. 27B .....\$21.50  
Ship. wt. ....20 lbs.

**SPECIAL SIZE GRILLES MADE TO YOUR ORDER**—If you should have an odd size door which our stock size will not fit, you can order any style grille made-up to your dimensions. Increase the regular list by \$5.00. Shipment will be made from factory within approximately 10 days.

**EASY  
TO  
INSTALL**

*Hang screen door with  
screen to inside—  
Fasten GRILLE with screws  
to wood door frame.*

Heights over 8'-0" (not recommended) add \$5.00 to 8'-0" List Price

Ornamental iron posts offer the builder many possibilities as a stock building item. They add the charm and distinction which only ornamental iron can do—to any home. Use them for remodeling and on new homes as the post support for canopies, in place of wood posts along a breeze way, as the decorative motif for a recessed or framed-in porch, or on the second story balconies of Colonial style architecture. Posts and railings can be combined, for instance, post 112 and railing with ornament design 133 or post 113 and railing ornament 131. For more attractive homes use ornamental iron!

ABOVE the same doorway of a 1947 low cost home. Note how the contractor improvised by cutting the corner bar of No. 105 POST to clear the door light and how 23B CANOPY BRACKET and standard STOOP RAIL ties to the post. SILHOUETTE is Design No. 11.

#### AT LEFT—

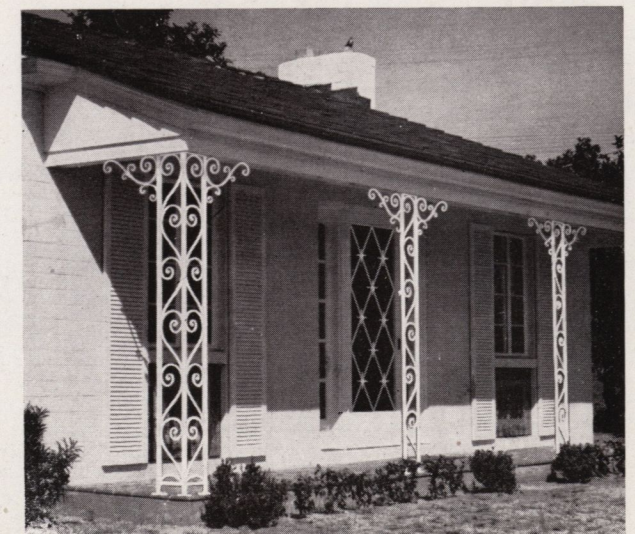

Coffman's graceful designed No. 100 PORCH POST. Note the forge drawn tips at the inner ends of the scrolls. ONLY Coffman's streamlined production methods can give you ORNAMENTAL IRON—hand-forged in traditional manner of fine craftsmanship—at this low cost.

**CORNER BARS**  $\frac{3}{4}$ " square stock. **SCROLLS** hand-wrought from  $\frac{1}{4}$ " x  $\frac{1}{2}$ " iron.

**SHIPPING WEIGHTS:** Approx. FLAT 35 lbs. CORNER 56 lbs.

No. 100

#### — BEAUTY WITHOUT BOUNTY —

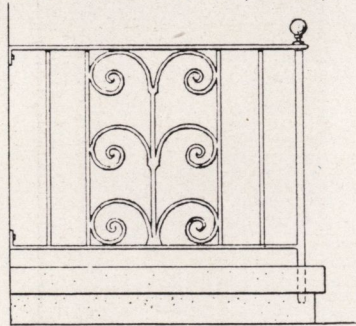

A TYPICAL APPLICATION of No. 105 Flat and Corner posts combined with No. 23B canopy brackets. Note also the No. 3 screen door grille.

# STOOP, PORCH and BALCONY RAILINGS of HAND-WROUGHT IRON

## Custom Railing...TO YOUR DIMENSIONS

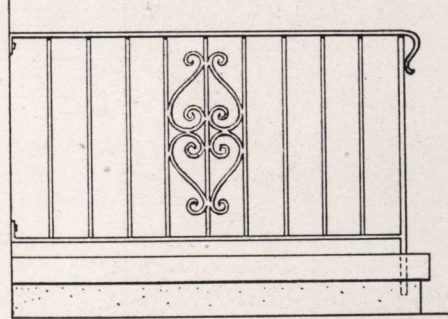

CUSTOM RAILINGS are made to your dimensions for Stoop, Porch, Terrace or Balcony and offer a wide range of ornamental construction uses. You can order railings with plain pickets or with any RAIL ORNAMENT DESIGN shown. The RAIL ORNAMENT DESIGNS match the PORCH POSTS. Beautiful second story balcony effects are created on Colonial Style homes by combining railings with PORCH POSTS (note how POST 114 and RAILING with ORNAMENT DESIGN 131 match).

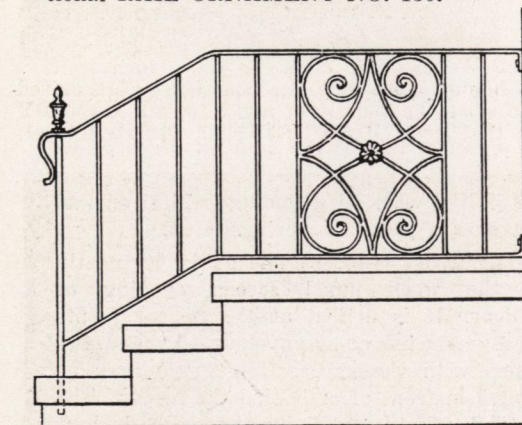

Typical Short Stoop Rail showing NEWELL POST finished with BALL plus additional RAIL ORNAMENT NO. 130.

Use RAILINGS in combination with POSTS for first story porches and terraces, large or small.

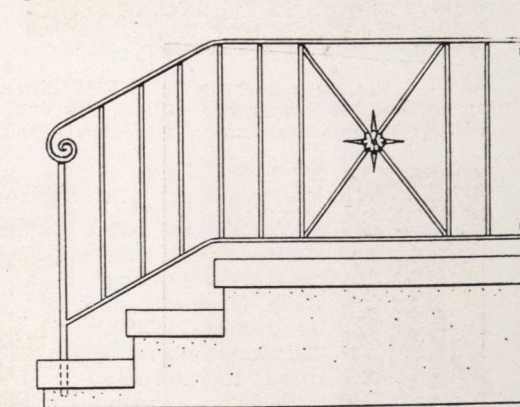

Long railings and those in combination with POSTS are manufactured in short sections, with flush joints, dowel pinned and bolted (always factory assembled and knocked down for shipment, dowel pins and bolts furnished). Figure your cost for any special job by adding railing cost, plus rail ornament design cost (if wanted), plus post cost.

Typical Longer Stoop Rail showing NEWELL POST finished with LAMB'S TONGUE plus additional RAIL ORNAMENT NO. 132.

Typical Combination STRAIGHT and SLANT RAIL for porches, terraces etc. showing NEWELL POST finished with LAMB'S TONGUE and SOLID BRASS URN plus add. RAIL ORNAMENT No. 133.

Typical Combination STRAIGHT and SLANT RAIL showing INSIDE SCROLL finish at NEWELL POST plus additional RAIL ORNAMENT NO. 131.  
Brass Urn cannot be used with Inside Scroll.

# CANOPY BRACKETS of HAND-WROUGHT IRON

Hand-wrought iron canopy brackets combine the beauty of ornamental iron with utility. The brackets below were designed to cover a wide range of residential and commercial purposes—from the small number 23B to the big strong No. 101.

A stock item which every builder will find many uses for. Don't spend a lot of valuable time having something made special, just select the proper bracket in advance. Get it at your building supply dealer. They are inexpensive because they are quickly available and do not require expensive labor cost for installation.

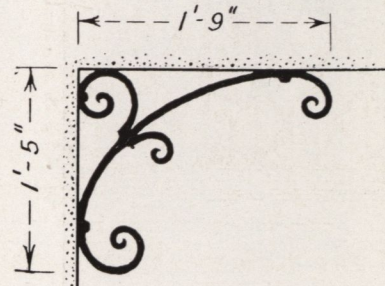

This large canopy was quickly and attractively braced with our heavy duty commercial-residential CANOPY BRACKET NO. 101.

FINISH: Primer only.

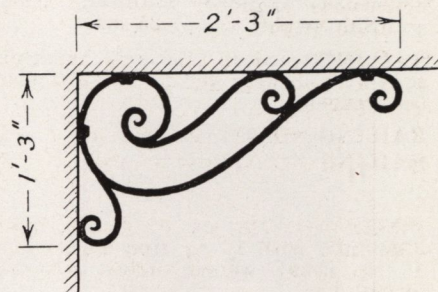

SHIPPED: Uncrated, wired in bundles, with necessary expansion shields and screws for mounting. Brackets are drilled ready for mounting.

PRICES: Are F. O. B. Factory, add freight or express for total price.

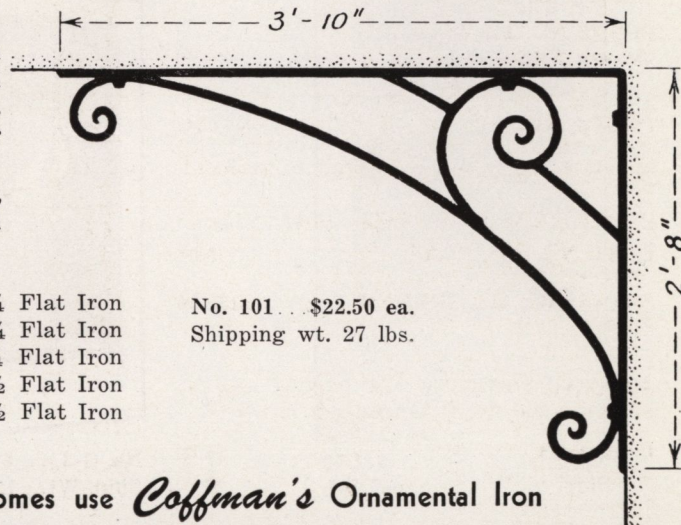

No. 115 Bracket made of  $\frac{3}{8}$  x  $1\frac{1}{4}$  Flat Iron

# To All Builders...

## of Attractive Homes

ORNAMENTAL IRON has been used down through the centuries as a building item. In this folder you will find the R. G. Coffman line of ornamental iron designed for you, low in cost and available **when** and **where** you want it. This catalogue will enable you to plan in advance, to know your costs and save. You can't afford to miss using a little ornamental iron on any low cost home—if only a screen door grille—because it will add so much in distinction and owner pride.

Many builders in small communities have found ornamental iron difficult if not impossible to obtain. No matter where you build—small village or city—you can use Coffman ornamental iron because, like any other building material, it is sold by your local building supply dealer. Don't waste valuable time searching. See your dealer and have ornamental iron.

STANDARD AND STOCK sizes are just as practical as in any other building material. In this catalogue you will find stock sizes which best meet the requirements of most modern building. With standard sizes you can plan your work in advance and avoid costly rework and special fits. Stock sizes lower costs to you, and save you money.

There isn't any mystery to ornamental iron and its installation. You will find every item in this folder has been designed for fast installation with a minimum of effort by any mechanic. Better yet, any necessary attachments are always furnished—such as lag screws and expansion shields.

QUALITY in hand-wrought iron is expressed in the pleasing designs which come from the forge of the master craftsmen. It is recognized in the beautiful patterns, in the smooth lines of the graceful scrolls. Always look for the forge drawn tips at the inner ends of the scrolls, the "mark" of genuine hand-wrought iron. Remember Coffman's Ye Olde Forge never compromises with quality.
